

Impact Analysis Statement

A Summary Impact Analysis Statement (IAS) must be completed for all regulatory proposals. A Full IAS must also be completed and attached for proposals that have significant impacts. Once completed, the IAS must be published.

Summary IAS

Details

Lead department	Department of Regional Development, Manufacturing and Water
Name of proposal	Water Plan (Georgina and Diamantina) (Postponement of Expiry) Notice 2024
Submission type	Summary IAS

Title of related legislative or regulatory instrument

Water Plan (Georgina and Diamantina) (Postponement of Expiry) Notice 2024

Date of issue 02 July 2024

Proposal type

Regulatory proposals where no RIA is required

The Water Plan (Georgina and Diamantina) 2004 is due to expire on 5 August 2024. A Postponement of Expiry Notice has extended the expiry date to 5 August 2027.

Extending the Georgina and Diamantina water plan for three years will maintain the short-term sustainable management of the region's water resources. This will provide adequate time to complete technical assessments and consultation to develop the replacement water plan, with a focus on ensuring the sustainable management of the region's water resources over the life of the replacement water plan.

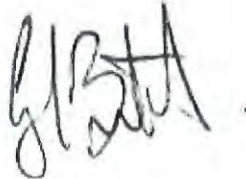

Gazettal of this notice occurred on 12 July 2024.

Postponing the expiry date of the Georgina and Diamantina water plan is an amendment that does not increase costs or the regulatory burden on business or the community and is not subject to Regulatory Impact Analysis under The Queensland Government Better Regulation Policy (2023).

Signed

Linda Dobe
